

01 Heat Sealers

Our Impulse Hand Heat Sealer is a great investment for sealing several packaging bags like Stand-Up Pouches, Side Gusset Bags, Flat Bottom bags, Spout Pouches, Paper Bags, etc. It helps for locking in freshness of your products.

With **7mm sealing thickness**, our sealers help in **preventing oxygen and moisture** inside the bags and maximise the shelf life of your products. Other competitors only provide 1mm to 2mm sealing thickness which does not prevent oxygen from entering and contaminates your product.

We provide 7mm Sealing Thickness	Competitors only provide 1-2 mm Sealing Thickness
👍 Prevents Oxygen and Moisture from entering	👎 Oxygen and Moisture enters easily into the bag and contaminates the product
👍 0% chance of product leakage	👎 Very high chances of product leakage
👍 Suitable to seal any kind of pouch without leakage	👎 Cannot seal laminated bags

Additionally, it is very easy to use compared to other heat sealers in the market. You just have to plug in, set the temperature and start sealing. Whatever you need to seal, this lightweight machine can handle it very well.

Our Machine Specifications:

- 7mm sealing thickness
- Available in 200mm and 300mm sealing width
- Adjustable time and light indicator
- No warmup time

For Perfect Sealing Impression, we would recommend that when the sealing is done and the light goes off, keep the handle pressed for 5-10 seconds.

39 Drink Bag With Zipper And Straw Holder.

We have developed new concept to serve juices, mocktails, cocktails in stand up pouches with zipper. This concept is getting very popular now due to the bags has good convenience than cups. One can easily carry 10 to 12 pouches in hand compared with cups. Liquid cannot spill once the pouch is zipped. Transportation is very easy even though one person is carrying the pouches in car as liquid will not spill even though the pouches are kept in slipping position. Children’s can easily handle the pouches with handle so no spill.

On our bags we have given two holes to hang the straw so the straw cannot fall and it is convenient to the customer. Try our new concept and see your sales going high!!

41 Stand up pouch with zipper Brown paper bags with oval window :

Stand up pouch with oval window in brown paper is now available in different sizes. This pouches are not suitable for oily products because it do not have sufficient barrier so the oil sometime migrates on the top surface of bag and sometime the paper looks little oily. This pouch does not have sufficient oxygen and moisture barrier. So the life of the product filled inside will be less compared with other bags. If you require more barrier and oil protection in brown paper with window, than please use our brown paper full rectangle window bags.

Moisture absorber:

Silica gel is a desiccant with a very high moisture absorption capacity.

Our Silica gel is packed in TYVEK paper (US-FDA certified for food and pharma contact)which is Non-Tearable and has high breathability for better moisture adsorption.

Role of Silica gel: To protect the food & pharma products during storage by absorbing excess moisture in the packaging, ensuring product Freshness and Quality.

In the Food packaging, Moisture will lead to the growth of mold.

Moisture & Condensation may decompose the vitamin capsules. Using Silica gel packets, these items can be preserved longer.
